LOAD HANDLING DEVICES

KARKINOS

2019-KR-02 

KARKINOS

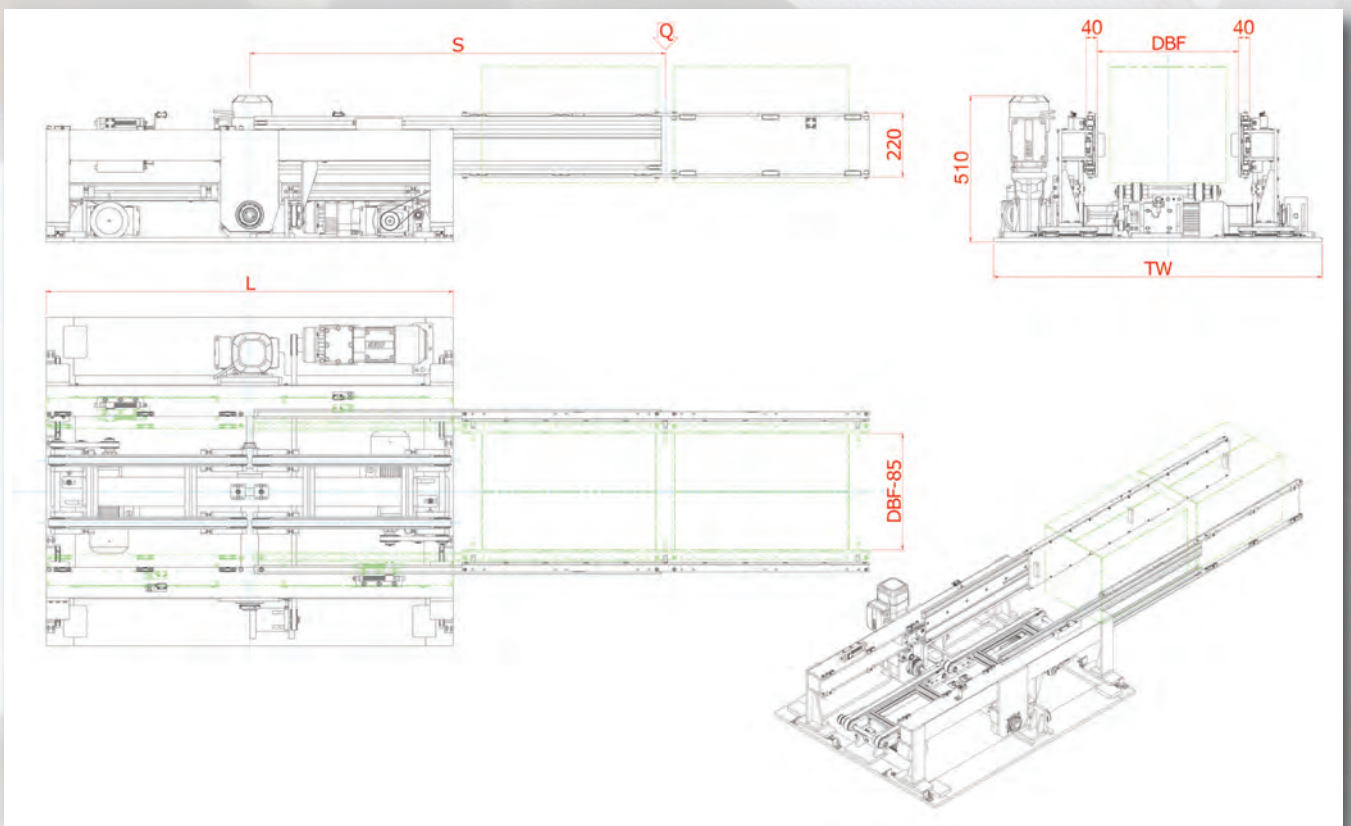

This is an equipment belonging to the latest generation of LHD products. Very simple and operational as for both its mechanical arrangement and its onboard plant design, the KARKINOS is the best solution for handling plastic boxes or cartons in simple depth.

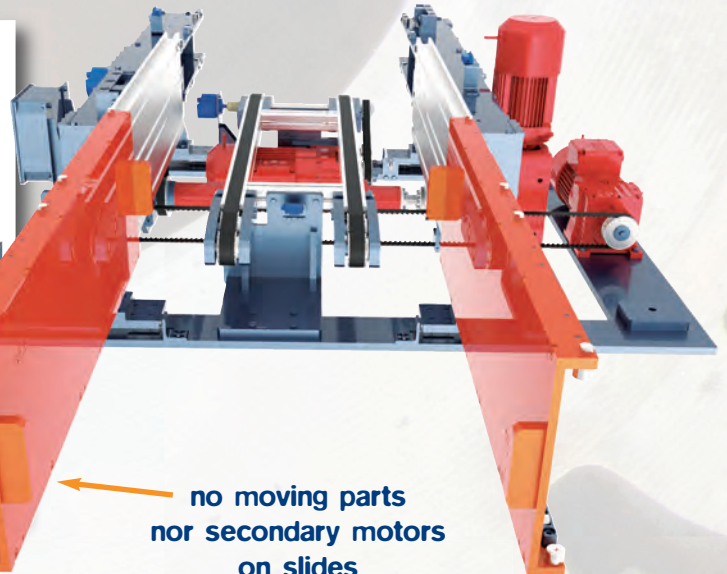

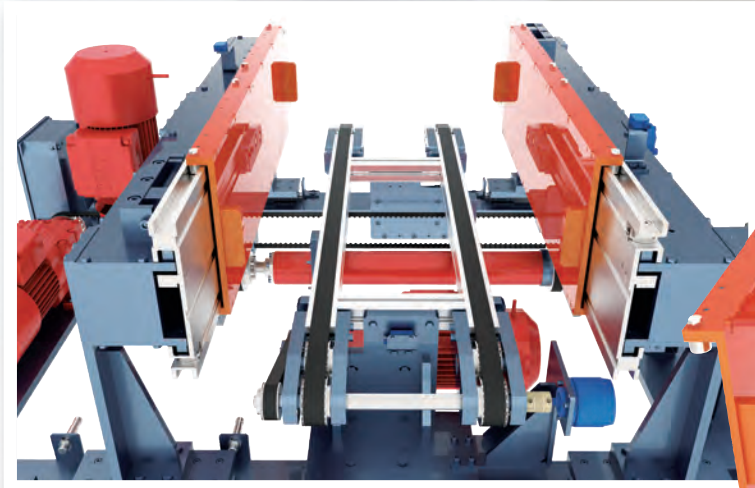

The main feature of the KARKINOS lies in its speed and in the reliability of its movement. It requires poor maintenance and it's easy to operate.

Q LOAD (KG)	L SYSTEM LENGTH (MM)	S STROKE (MM)	TW SYSTEM WIDTH (MM)	DBF DISTANCE BETWEEN FORKS (MM)
50+50	1200	1250	1030	385
	1300	1350	1130	485
	1400	1450	1230	585
	1550	1550	1330	685

With no mobile dragging "fingers", it can handle the load in a very simple way.

The KARKINOS is the perfect solution for simple pick-up warehouses.

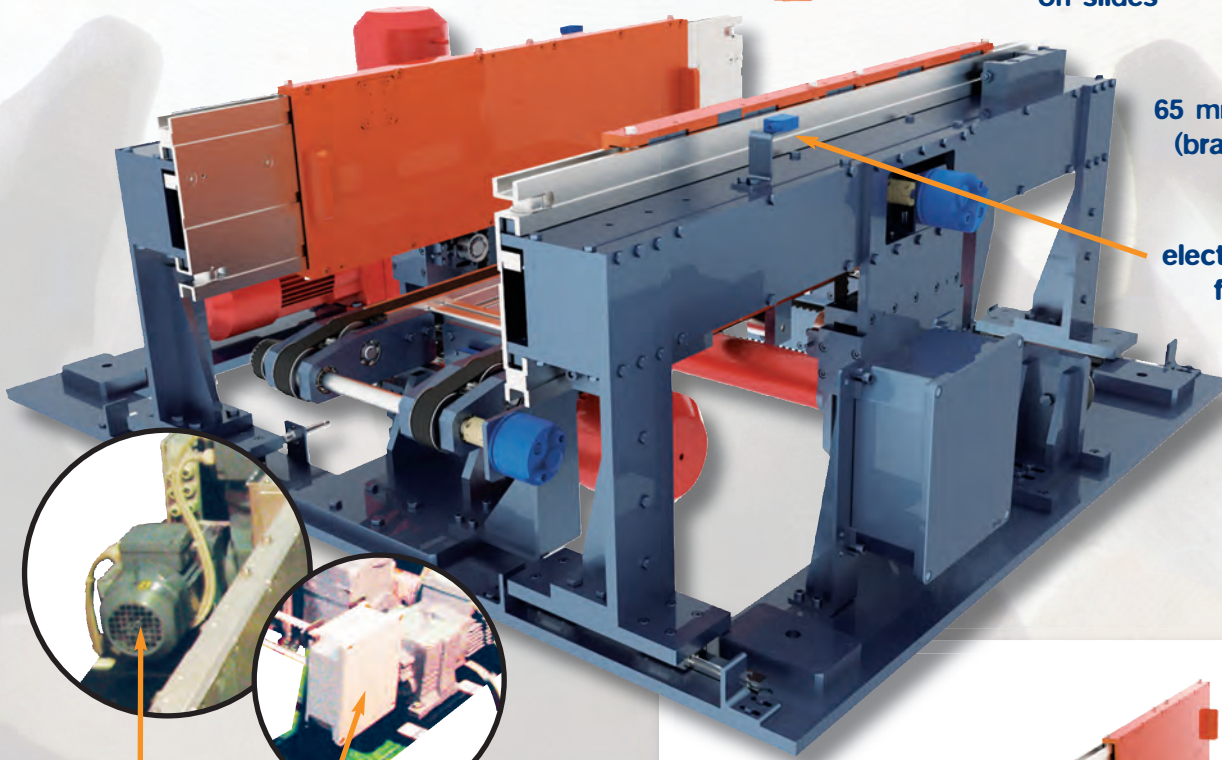

no moving parts
nor secondary motors
on slides

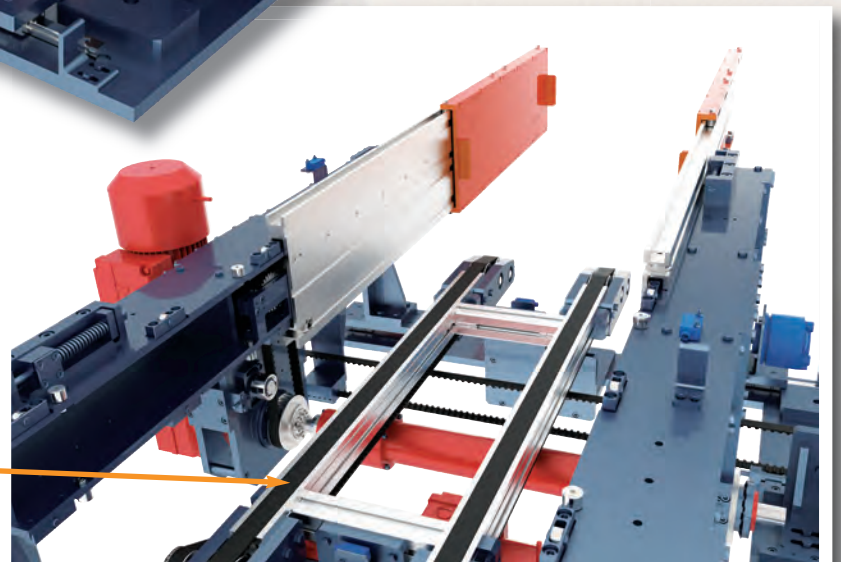

65 mm fork thickness
(brackets included)

electric plant including
full sensor set

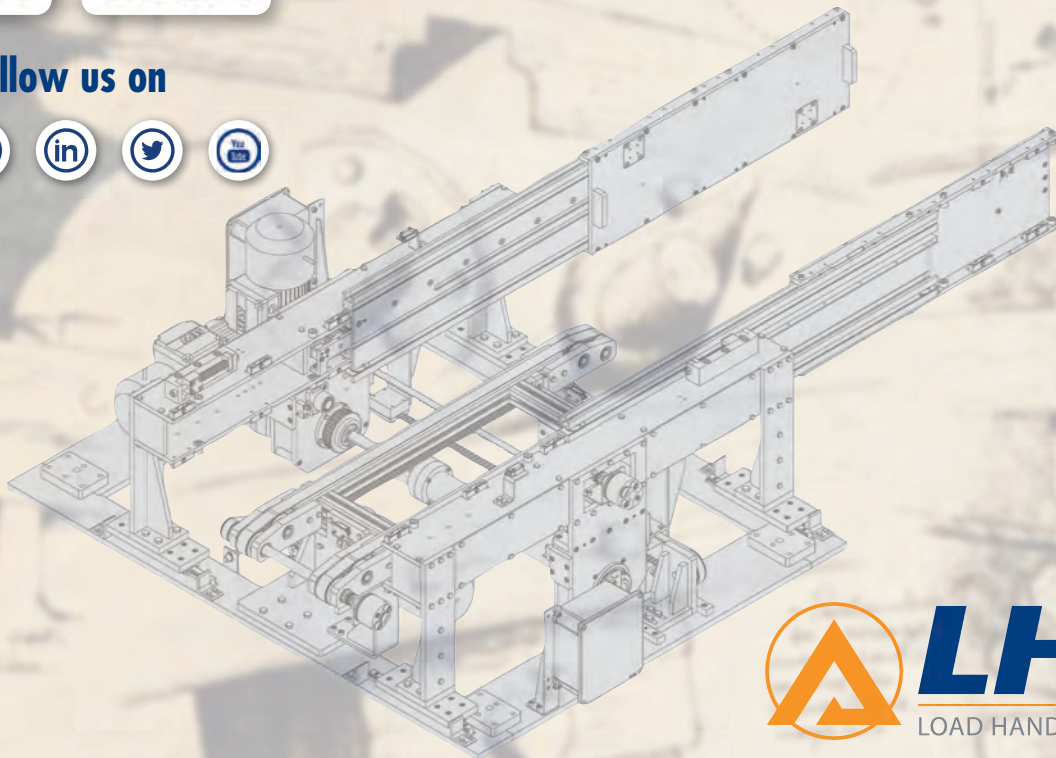

delivered with fully
operating connections
and electro-mechanical
plant ("plug and run")

belt system to move the load onboard
with sensors to check its presence
